

TEACHING MODULE

Topic 1: Unhealthy Phone Habits

This teacher module provides structured guidance for delivering podcast-based vocabulary learning for screen time awareness on unhealthy phone habits.

1. Module Overview

Component	Details
Topic	Unhealthy Phone Habits
Level	Junior High School
Duration	3 Meetings × 50 minutes
Skills	Listening, Speaking, Reading, Writing
Language Focus	Vocabulary about digital habits
Learning Media	VOCARO Podcast

Module Description

The module supports teachers in facilitating student engagement, monitoring comprehension, and encouraging reflection on digital habits. It ensures that lessons are interactive, skill-integrated (listening, speaking, reading, writing), and relevant to students' daily experiences. This module equips teachers with clear procedures for pre-listening, while-listening, and post-listening activities, along with vocabulary integration, pronunciation practice, and speaking tasks.

2. Learning Objectives & Learning Indicators

Learning Objectives

By the end of the three-meeting podcast program, students will be able to identify target vocabulary related to unhealthy phone habits, explain the impacts of excessive phone use, analyze practical strategies for healthier digital habits, and apply relevant vocabulary and expressions in meaningful spoken interactions with understandable fluency and pronunciation.

Learning Indicators

By the end of the three-meeting podcast, students will be able to:

- Match at least 9 out of 11 target vocabulary items with their meanings.
- Identify at least 2 negative effects of excessive phone use.
- Compare their initial predictions with the solutions presented in Podcast 2.
- Explain at least 1 practical strategy for reducing unhealthy phone use.
- Use at least 3 target expressions appropriately in role-play activities.
- Demonstrate understandable pronunciation and fluency during speaking performance.

5-8	Needs Improvement

8. Teacher Reflection

Example Teacher Reflection

After the lesson, teachers should reflect on student engagement, vocabulary comprehension, and use of expressions. Consider whether students compared predictions with podcast solutions effectively, practiced pronunciation clearly, and participated actively in role-play. Evaluate the quality of student reflections on digital habits and note which activities generated the most learning impact. Adjust future lessons based on these observations.

Questions to guide teacher reflection:

- Were students actively engaged in this learning activity?
- Did students understand and use the target words correctly in listening and speaking tasks?
- Did students apply useful expressions naturally in dialogue and role-play?
- Did students provide thoughtful reflections on healthier digital habits?
- What should be adjusted for the next lesson?
